

Please do not allow LPFM services to displace the local frequencies of K-LOVE radio.

K-LOVE is a life-line to those lucky enough to have K-LOVE network signals in their local communities as I have enjoyed in the past. Currently I live in a small town with no local frequency, but during my travels in the last year, I have been encouraged through access to K-LOVE through local frequencies.

K-LOVE impacts thousands of families and individuals in positive ways every day of every year. Few resources in our county provide such a great service at a cost-effective price.

Please ensure the K-LOVE can continue serving our great county with it's valuable public interest broadcasting.
